Learn the Facts**In the Gas Situation.**

I am trying to give the Company's side of the gas controversy in signed statements in the daily newspapers.

Every man and woman in the city should be interested in this record of a service organization which has made every effort to be a useful public servant.

This Company has saved the people of Louisville millions of dollars in the past four and one-third years. Every big undertaking which it has accomplished has produced benefits of substantial value to the great majority of citizens.

This Company is striving to live up to the express terms of the franchise by securing permission to supplement the natural gas supply with manufactured gas next winter, in case of need. In the face of a national shortage, the situation is very serious.

To avoid widespread suffering and hardship next winter we want your help and co-operation.

Please read my statements in the daily newspapers.
